

## COME CREARE CORRETTAMENTE UN FILE PER LA STAMPA - LETTERE IN CARTONE

Le seguenti indicazioni ti aiuteranno a creare un file di stampa corretto. Per ulteriori dubbi puoi consultare il nostro sito alla sezione **FAQ**, attivare la **Verifica File con operatore** o l'**Assicurazione Freereprint**, chiamare il nostro servizio **Assistenza** o contattarci via **chat**.

Con questo prodotto è possibile realizzare scritte o sequenze di lettere in cartone che possono essere di color avana (nessuna stampa) oppure stampate in quadricromia su fondo avana (stampa solo fronte).

### 1 ORIENTAMENTO

L'opzione "Orientamento" si riferisce al senso di lettura dei caratteri: nel caso di orientamento orizzontale sarà da sinistra a destra, nel caso di orientamento verticale sarà dall'alto verso il basso.

In base all'orientamento selezionato ti verrà fornita una dima per consentirti di applicare con facilità le lettere ad una eventuale superficie.

### 2 SET DI CARATTERI

Le lettere vengono create sulla base del font **Helvetica Neue LT Std Black**. Qui sotto trovi il set di caratteri disponibili.

**ABCDEFGHIJKLMNOPQRSTUVWXYZ**  
**abcdefghijklmnopqrstuvwxyz**  
**0123456789 !?%&@€\$£**

### OPZIONE "NESSUNA STAMPA"

Inserisci alla voce "Campo di testo" la frase o la sequenza di lettere che vuoi ordinare e seleziona l'orientamento.

### OPZIONE "STAMPA SOLO FRONTE"

Inserisci alla voce "Campo di testo" la frase o la sequenza di lettere che vuoi ordinare e seleziona l'orientamento. Le lettere in cartone sono stampabili soltanto da un lato, con un pattern continuo che puoi creare in base alle indicazioni che troverai di seguito.

### 3 FORMATO DEL FILE

Invia il tuo file in formato **PDF in scala 1:1 (non protetto da password)**.

### 4 COLORI

Considera che nel prodotto stampato i **colori risulteranno più scuri, in quanto il supporto di stampa è color avana**, non bianco carta. Inoltre, gli elementi che vedi in bianco nel tuo file risulteranno trasparenti sul prodotto stampato.

Tutti i file vanno inviati in **CMYK** (ciano, magenta, giallo, nero) assegnando il **profilo colore Fogra 39**.

Le immagini in RGB o con colori PANTONE saranno convertite in automatico con un profilo di separazione standard.

### 5 RISOLUZIONE

La risoluzione ottimale dei file per la stampa è **tra i 100 e i 150 dpi**.

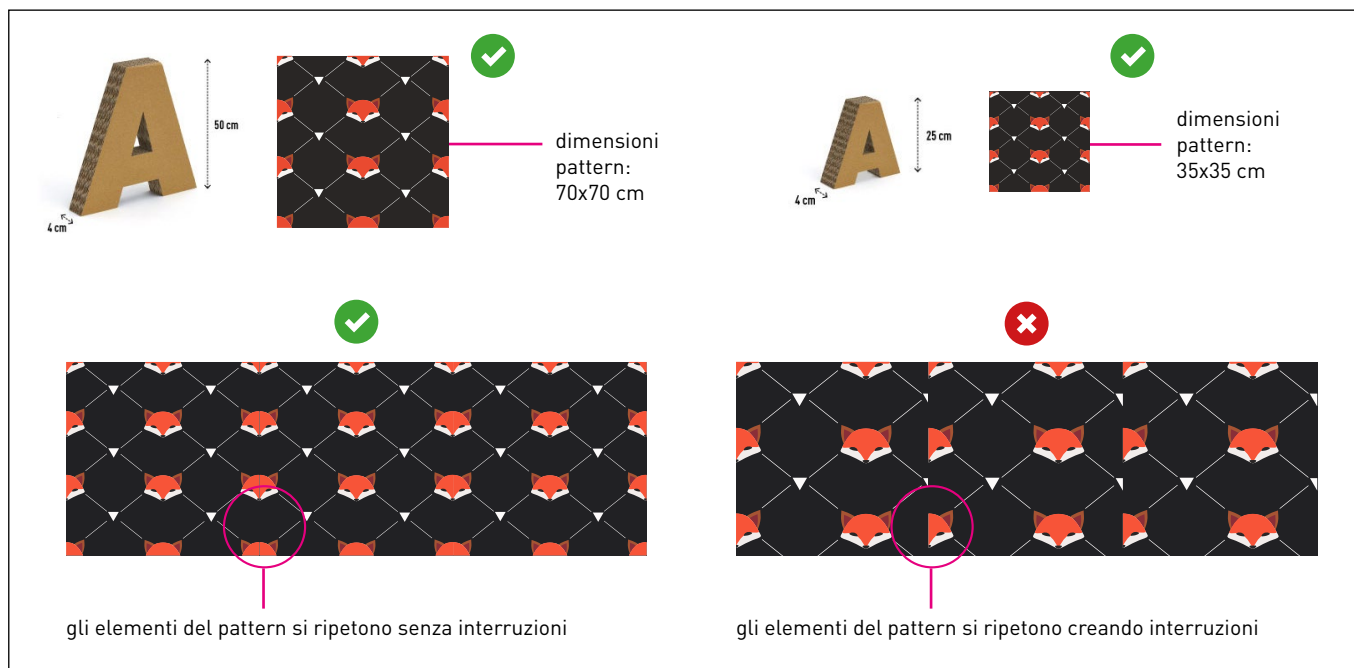

### 6 INFORMAZIONI AGGIUNTIVE

Il tratto minimo stampabile è di **0,5 pt**.

## 7 PATTERN PERSONALIZZATO

Il pattern personalizzato dovrà avere dimensioni 35x35 cm nel caso di lettere con altezza media 25 cm e 70x70 cm nel caso di lettere con altezza media 50 cm.

Scarica dal sito **il template** e usalo come base per posizionare la tua grafica: troverai già correttamente impostate le dimensioni del pattern. **È fondamentale che gli elementi grafici che compongono il tuo pattern siano disposti in modo da poter essere moltiplicati in sequenza senza interruzioni.** Infine, salva il file in pdf senza inserire abbondanze, crocini o segni di taglio.

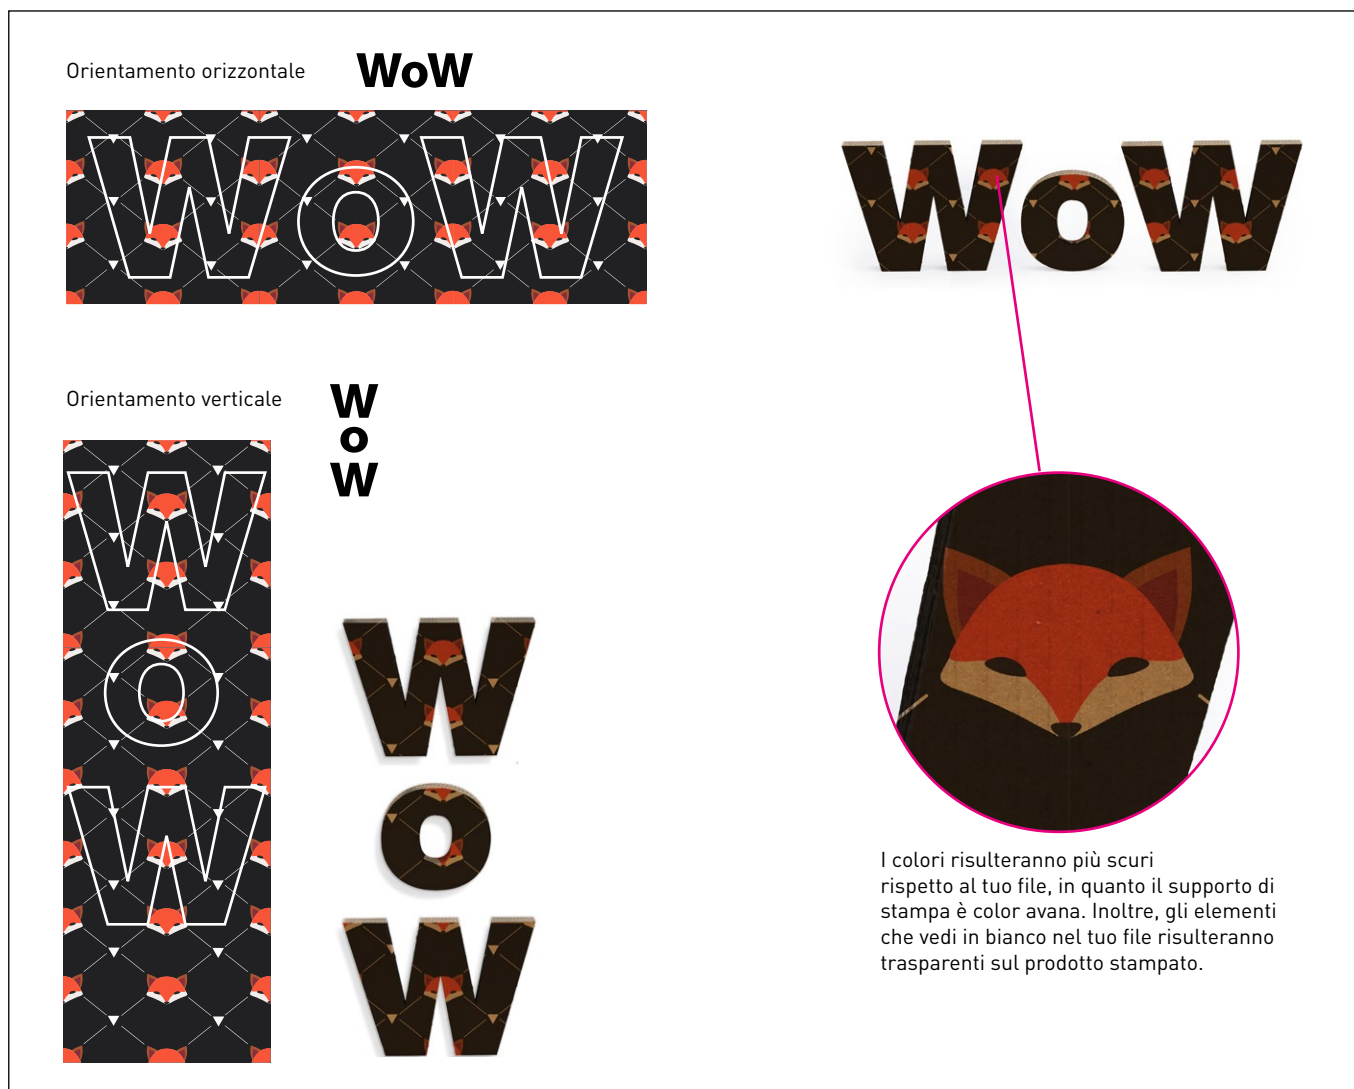

The diagram illustrates the correct and incorrect ways to create a pattern for 3D printing. On the left, a 3D letter 'A' with a height of 50 cm and a width of 4 cm is shown next to a 70x70 cm pattern of fox heads, marked with a green checkmark. On the right, a 3D letter 'A' with a height of 25 cm and a width of 4 cm is shown next to a 35x35 cm pattern of fox heads, also marked with a green checkmark. Below these, two horizontal strips of the pattern are shown. The left strip shows the pattern repeating without interruptions, marked with a green checkmark. The right strip shows the pattern repeating with interruptions, marked with a red 'X'.

dimensioni pattern: 70x70 cm

dimensioni pattern: 35x35 cm

gli elementi del pattern si ripetono senza interruzioni

gli elementi del pattern si ripetono creando interruzioni

The diagram shows the 'WoW' text in two orientations: horizontal and vertical. The horizontal orientation shows the text 'WoW' in a bold, sans-serif font, with the 'W' and 'O' being larger than the 'W'. The vertical orientation shows the text 'WoW' stacked vertically, with the 'W' and 'O' being larger than the 'W'. A circular inset shows a close-up of the fox head pattern, with a pink line pointing to the text 'WoW' in the 3D rendering above it.

Orientamento orizzontale **WoW**

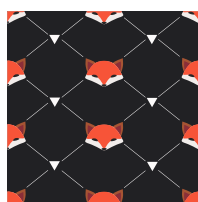

Orientamento verticale **W**  
**o**  
**W**

I colori risulteranno più scuri rispetto al tuo file, in quanto il supporto di stampa è color avana. Inoltre, gli elementi che vedi in bianco nel tuo file risulteranno trasparenti sul prodotto stampato.
